Statement in support of Dr. Tetrus Adhanom Ghehebreyesus

The Government of the Republic of Namibia has noted with concern, several voices rising in unfounded and disparaging criticism of the Director-General of the World Health Organization.

In condemning these criticisms, the Government of the Republic of Namibia wishes to voice its support for Dr. Tedros, and acknowledges with gratitude the notable achievements and remarkable leadership he has shown in the health sector since he assumed this post in 2017, particularly in the area of health emergencies.

The Government of the Republic of Namibia wishes to call on stakeholders to adopt a spirit of solidarity in these trying times as we all battle the same enemy, the COVID-19 pandemic.

Issued by:

Hon. Netumbo Nandi - Ndaitwah

DPM and Minister Ministry of International Relations and Cooperation
